

We want to inform you about the norms we have at Fir Ridge Campus to ensure a safe and productive learning environment for your students. These are designed to support their academic growth and well-being. Please take a moment to familiarize yourself with them:

Bring Your Best Self to School:

To help your child bring their best self to school, please remind them of these key points:

Attendance Matters:	If you are absent, you must work with your teacher to access the missed work and catch up on any assignments or lessons you may have missed.
Emotional Readiness:	Come to school with a positive mindset and be open to the day. Your attitude impacts your overall success.
Get Enough Rest:	Getting adequate rest is crucial to stay focused and energized throughout the day. Take care of yourself and prioritize sleep.
Maintain Appropriate Dress Code:	Wear suitable clothing for classroom activities. Ensure adequate coverage, non-see-through clothing, and no offensive or drug-related items.
No Drugs, Alcohol, Tobacco, or Nicotine:	At our school, we strictly prohibit the presence of these substances. Let's prioritize a campus that promotes health and remains free of substances.
Stay Open-Minded:	Embrace different ideas and respect diverse viewpoints. We can learn much from each other when we're open to new perspectives.

Engage in Productive Work:

To maximize their time in class, encourage your child to keep these tips in mind:

Be Punctual:	Arrive on time for your classes so you don't miss out on important information and activities.
Create Your Own Work:	Express your ideas independently while avoiding plagiarizing the work of others, including AI-generated content. By creating your own work, you demonstrate integrity and develop essential skills that will benefit you academically and personally.
First and Last Ten:	It is important to remain in the classroom during each class's first and last ten minutes. This allows for attendance monitoring and ensures that everyone is present where they are supposed to be.
Participate in Classroom Activities:	Take part in discussions, group work, and activities. Your voice matters, and your contributions enrich the learning experience for everyone.
Quick Restroom Breaks:	When you need to use the restroom, do so quickly and efficiently to minimize disruptions to the class.
Technology Use	Avoid using technology during instructional time, enabling better focus and engagement in the classroom.

Maintain a Safe Environment:

To ensure a safe environment for all students, It's important that we communicate these expectations to your child:

Clean Up After Yourself:	Take responsibility for your belongings and clean up after yourself. Let's keep our school clean and organized.
Eating and Drinking:	Enjoy your food and beverages during designated times and in approved areas. Let's maintain a clean and orderly environment.
Kind Words:	Communicate with others using kind and respectful language. Let's create a positive and inclusive atmosphere through our words and actions.
No Fighting or Threats:	Physical aggression, fighting, or threats of any kind are strictly prohibited. Let's resolve conflicts peacefully and seek help from staff when needed.
No Food Deliveries:	To prioritize safety, food deliveries to the campus are not allowed. This helps us control who has access to our school grounds.
Passes with Purpose:	Use hall passes only when necessary and for valid reasons. Let's respect the importance of instructional time and minimize disruptions.
Stay on Campus:	We're expected to remain on campus unless permitted to leave during school hours. This helps ensure our safety and security.
Use of School Materials	Use school stuff only for school, handle with care, ask before sharing, and return after use. Let's keep everything safe and ready for everyone!

We appreciate your partnership in supporting your student's success at Fir Ridge Campus. If you have any questions or concerns, please don't hesitate to contact us. We can create a safe and nurturing learning environment for our high school students.
